## TESTIMONIAL

“ My first encounter with Skeedy ID was at Wicked Sharp. After many years of filling out my unchanged information they switched to an online form that actually SAVES my personal information. Skeedy ID puts an end to my frustration and made our family request for services quick and simple - as it should be!

— Sally Sullivan

“ Wicked Sharp has been the beta site for Skeedy ID since October 2014, we have worked closely with Skeedy ID's team to help make the program work seamlessly. We have found by using Skeedy our cost for paper forms went from \$3000 a year down to roughly \$16.00! What the program does can revolutionize the way the sporting goods industry interacts with customers.

We have noticed that our customers have spent much less time filling out paperwork and more time shopping. This is the best part of Skeedy, it takes the mundane paperwork out of the equation, making the customer experience much more pleasurable.
